WILSON MAY BE MADE CHAIRMAN OF LEAGUE OF NATIONS

tion shall be permitted.

It was indicated at yesterday's meeting of the Supreme War Council that the civilian elements had decided that the time had come to essert themselves and issues that developed at that meeting will be considered at the next gathering wi hout the presence of the military leaders.

GERMAN REPARATION DEMANDED AS PRICE OF ENTERING LEAGUE

Council of Seven to Rule Society of Nations Under New Agreement.

PARIS, Feb. 8 .- One agreement understood to have been reached by the League of Nations Commission is that the Central Powers must make full reparation for all past offenses before they will be admitted to the League

The initial governing body of the League will be an executive committee of seven, one representative for each of the five great powers and two for the smaller countries-it was learned from a reliable source to-day.

This agreement is said to have been contained in one of the 22 articles of the Constitution, two-thirds of which are officially announced as having been accepted by the Special Committee on the League of Nations, It would indicate that the minor pow ers jost their contention for larger representation on the Executive Com-

mittee. The two or three individual plans for the framework of the league have now been merged into a single composite draft, upon which the committee is centring all its efforts. The remaining articles, which are believed of permitting neutrals to trade with to include comparatively minor prob- Germany in foodstuffs up to an lems, have all been agreed to in prin- amount within the ration fixed by the

New Creed for Real American, **Growing From War Conditions,** Laid Down by Vice-President

Mr. Marshall Offers It as a National Guide Toward the Treatment of Bolshevism and Other Isms Confronting the Country.

WASHINGTON, Feb. 8. N a speech at the National Press Club last night, Vice President Marshall asked the newspaper men to submit to the people of the United States, through the newspapers, a new American creed for adoption by straw vote. He offers it as a national guide in the attitude toward Bolshevism and other isms concerning which there has been fear voiced since the signing of the armistice. It reads:

"I believe that the American Republic as instituted by the fathers constitutes the finest system of Government ever ordained among men and affords the machinery for the righting of grievances without resort to violence, turnult, and disorder,

"I believe that every inequality which exists in the social and economic condition of the American people is traceable to the successful demands of interested classes for class legislation, and I believe, therefore, that practical equality can be obtained under our form of Government by remedial legislation in the interest of the American people and not in the interest of any body thereof, large or small.

"I believe there is no justification in a Government, where officials are elected and laws made by the people, for a minority to threaten bloodshed and anarchy unless the majority shall submit to the will of the minority.

"I believe that America belongs to American citizens, natives and naturalized, who are willing to seek redress for their grievances in orderly and constitutional ways, and I believe that all others should be taught, peacefully if we can and fercibly if we must, that our country is not an international boarding house nor an anarchist cafe.

"I pledge myself to the support of these principles by my voice, by vote, and, if need be, by my fortune and my life, and I promise my country to train my children in this most holy faith."
